

# RADMITON

Radmiton (LED Badminton) first debuted as an Art Installation at PEX Summer Festival in Maryland in 2015. It was developed in an attempt to create more interactive actives for festivals at night. Not only is Radminton amazing to look from a distance by watching light-up tennis balls soar though the air it is also an all inclusive badminton game for people of all ages to play.

**Court at night with red ball**

**Court with ball**

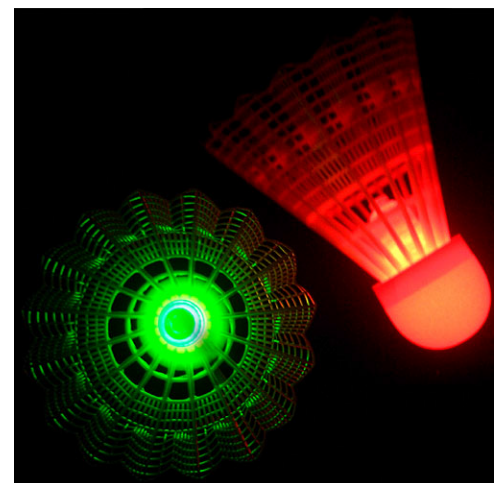

**8 Patten LED NET Lights**

**EL Wire Tennis Rackets**

**L.E.D Badminton Birdies**
